Attached is the Office of Environment, Safety and Health (EH) determination related to the subject Environmental Assessment (EA) and Finding of No Significant Impact (FONSI), which was transmitted to EH on June 11, 1991. (This latter transmittal letter is also attached.) EH has determined that the proposed action is not a major Federal action significantly affecting the quality of the human environment, within the meaning of the National Environmental Policy Act, and therefore the preparation of an environmental impact statement is not required.

We provided a copy of this determination to your staff on December 16, 1991. We appreciate the assistance of Oba Vincent and Behram Shroff of your staff in the considerable effort to gain EH signature on this action.

Please note that you are responsible for providing public notice of the availability of the EA and FONSI, preparing and distributing a cover sheet indicating the documents that have been adopted as the EA and FONSI, and sending five copies of the EA and a copy of the distribution list to the Office of NEPA Oversight in EH.

If you have any questions, please contact Brad Wright of my staff at FTS 233-8158.
